VISION

Transforming our knowledge/know-how into added value for the benefit of our clients and members of Jebsen & Co.

OUR MAIN PRINCIPLES

Counseling from one source

The strength of Jebsen & Co. lies in the fact that the foreign investor / argentine/ foreign entrepreneur centralizes in only one contact the principal different practice areas he may require.

This technique known as "**One-stop Company**" is very important in the **Start-up / Set-up / Clean-up / Grow-up / Take-over / Close-down** processes, that is to say, in relation to the usual changing circumstances affecting a company / organization.

Entire responsibility

In all cases, one particular **partner**, **director**, **associate** or **manager** of Jebsen & Co. takes the entire responsibility for a client and the follow-up of his needs.

The partners lead Jebsen & Co. based on their own expertise and the responsibility that each of them has over the different departments under their respective charge.

Interdisciplinary group

One of our peculiarities is the teamwork and mutual interaction of different professions: CPA, Corporate Lawyers, MBA, Human Resources Management, Systems Engineers and Public Translators.

In this way, the different departments of Jebsen & Co. have a wider view of the client's needs enabling them to provide a proper solution for each particular case.

Worldwide contacts with colleagues

Jebsen & Co. has always maintained contacts with colleagues of the most important economic regions of the world. In the course of the globalization, these relationships proved to be very useful, also in the benefit of our clients.
